SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
- Trade name: Crystalbond 509

1.2 Relevant identified uses of the substance or mixture and uses advised against
- Mounting adhesive polymer.

1.3 Details of the supplier of the safety data sheet
- Supplier:
  Agar Scientific Ltd
  Parsonage Lane
  Stansted CM24 8GF
  United Kingdom
  sales@agarscientific.com
  Tel: +44 (0) 1279 813 519

1.4 Emergency telephone number:
- 24 hours: +44 (0)1856 407333

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture
- Classification according to Regulation (EC) No 1272/2008

- Flam. Sol. 1 H228 Flammable solid.

2.2 Label elements
- Labelling according to Regulation (EC) No 1272/2008
  The product is classified and labelled according to the CLP regulation.

2.3 Other hazards
- Results of PBT and vPvB assessment
  - PBT: Not applicable.
  - vPvB: Not applicable.
SECTION 3: Composition/information on ingredients

· Description: Mixture of substances listed below with nonhazardous additions.
· Dangerous components: Void
· Additional information:
  For the wording of the listed hazard phrases refer to section 16.
  Emergency overview
  Appearance: Clear or clear amber solid.
  Immediate effects: ND
  Potential health effects
  Primary Routes of entry: For product: ND
  Signs and Symptoms of Overexposure: ND
  Eyes: NA
  Skin: If in molten state, exposure to skin will cause severe thermal burn.
  Ingestion: NA
  Inhalation: NA

Potential environmental effects
See Ecological Information (Section 12)
Chronic Exposure: ND
Chemical Listed As Carcinogen Or Potential Carcinogen: None.
See Toxicological Information (Section11).

SECTION 4: First aid measures

· 4.1 Description of first aid measures
· After inhalation: NA
· After skin contact: Treat for thermal burn. See physician.
· After eye contact: NA
· After swallowing: If symptoms persist consult doctor.
· 4.2 Most important symptoms and effects, both acute and delayed
  No further relevant information available.
· 4.3 Indication of any immediate medical attention and special treatment needed
  No further relevant information available.

SECTION 5: Firefighting measures

· 5.1 Extinguishing media
· Suitable extinguishing agents:
  Use fire extinguishing methods suitable to surrounding conditions.
  Foam, carbon dioxide, dry powder.
· For safety reasons unsuitable extinguishing agents: Do not use water.
· 5.2 Special hazards arising from the substance or mixture
  Flash Point: >262 ºC. Method: COC
  Hazardous combustion products: Carbon monoxide, carbon dioxide.
  DOT Class: None
· 5.3 Advice for firefighters
· Protective equipment: No special measures required.

SECTION 6: Accidental release measures

· 6.1 Personal precautions, protective equipment and emergency procedures
  Wear protective gloves and glasses.
· 6.2 Environmental precautions:
  Dispose of waste according to Federal, State and Local Regulations.
6.3 Methods and material for containment and cleaning up:
Ensure adequate ventilation. If material is unusable, sweep up and dispose of in a metal container.

6.4 Reference to other sections
See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

SECTION 7: Handling and storage

7.1 Precautions for safe handling
Avoid excessive heat, sparks, open flame.

Information about fire - and explosion protection:
The dried resin is combustible, similar to wood. Burning dry resin emits dense, black smoke. As latex, material is not combustible.
Protect against electrostatic charges.

7.2 Conditions for safe storage, including any incompatibilities
Storage:
Requirements to be met by storerooms and receptacles:
Storage temperature: Room temperature.
Information about storage in one common storage facility: Not required.
Further information about storage conditions:
Keep container tightly sealed.
Protect from heat.

7.3 Specific end use(s)
No further relevant information available.

SECTION 8: Exposure controls/personal protection

Additional information about design of technical facilities:
Ventilation required: Good industrial hygiene practice requires that employee exposure be maintained below the recommended TLV. This is preferably achieved through the provision of adequate ventilation where necessary. Where dust cannot be controlled in this way, personal respiratory protection should be employed.

8.1 Control parameters
Ingredients with limit values that require monitoring at the workplace:
The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Additional information: The lists valid during the making were used as basis.

8.2 Exposure controls
Personal protective equipment:
General protective and hygienic measures: Wash hands before breaks and at the end of work.
Respiratory protection:
Where dust cannot be controlled in this way, personal respiratory protection should be employed.

Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.
Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Material of gloves
The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several

(Contd. on page 4)
substances, the resistance of the glove material can not be calculated in advance and has therefore
to be checked prior to the application.
· Penetration time of glove material
  The exact break through time has to be found out by the manufacturer of the protective gloves and
  has to be observed.
· Eye protection: Not required.
· Body protection: Care should be taken when in molten state.

SECTION 9: Physical and chemical properties

- 9.1 Information on basic physical and chemical properties
- General Information
  - Appearance:
    · Form: Solid
    · Colour: Amber coloured
  - Odour:
    · Odour: Odourless
  - Odour threshold:
    · Not determined.
- pH-value:
  · Not applicable.
- Change in condition
  - Melting point/freezing point: 107 °C
  - Initial boiling point and boiling range: >148 °C
- Flash point:
  · >262 °C
- Flammability (solid, gas):
  · Not determined.
- Decomposition temperature:
  · Not determined.
- Auto-ignition temperature:
  · Product is not selfigniting.
- Explosive properties:
  · Not determined.
- Explosion limits:
  - Lower: Not determined.
  - Upper: Not determined.
- Vapour pressure at 20 °C:
  · 1.1 hPa
- Density at 20 °C:
  · 1.35 g/cm³
- Relative density
  · Not determined.
- Vapour density
  · Not applicable.
- Evaporation rate at 20 °C
  · Nil
- Solubility in / Miscibility with water:
  · Insoluble.
- Partition coefficient: n-octanol/water:
  · Not determined.
- Viscosity:
  - Dynamic:
    · Not applicable.
  - Kinematic:
    · Not applicable.
- Solvent content:
  - VOC (EC)
    · 0.705 g/l
    · 0.00 %
- 9.2 Other information
  · No further relevant information available.
10.2 Chemical stability Stable.
Thermal decomposition / conditions to be avoided:
No decomposition if used according to specifications.
10.3 Possibility of hazardous reactions No dangerous reactions known.
10.4 Conditions to avoid Excessive heat, sparks, open flames.
10.5 Incompatible materials: ND
10.6 Hazardous decomposition products:
Hazardous Decomposition Products: Carbon monoxide, carbon dioxide.
Hazardous Polymerization: Will not occur.

SECTION 11: Toxicological information

11.1 Information on toxicological effects
Acute toxicity Based on available data, the classification criteria are not met.
Skin corrosion/irritation Based on available data, the classification criteria are not met.
Serious eye damage/irritation Based on available data, the classification criteria are not met.
Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
Additional toxicological information:
This product does not contain any compounds listed by NTP or IARC or regulated by OSHA as a carcinogen.
CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
Germ cell mutagenicity Based on available data, the classification criteria are not met.
Carcinogenicity Based on available data, the classification criteria are not met.
Reproductive toxicity Based on available data, the classification criteria are not met.
STOT-single exposure Based on available data, the classification criteria are not met.
STOT-repeated exposure Based on available data, the classification criteria are not met.
Aspiration hazard Based on available data, the classification criteria are not met.

SECTION 12: Ecological information

12.1 Toxicity
Aquatic toxicity: No further relevant information available.
12.2 Persistence and degradability No further relevant information available.
12.3 Bioaccumulative potential No further relevant information available.
12.4 Mobility in soil No further relevant information available.
Additional ecological information:
General notes: Not known to be hazardous to water.
12.5 Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.
12.6 Other adverse effects No further relevant information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods
Recommendation
Must not be disposed together with household garbage. Do not allow product to reach sewage system.
Ensure proper disposal compliance with proper authorities before disposal.
Recommendation: Disposal must be made according to official regulations.
SECTION 14: Transport information
