Refrigeration - Service Solutions

A comprehensive portfolio designed to maximise the efficiency, reliability, and accuracy of your equipment.

- Health checks
- Servicing and preventative maintenance contracts
- Flexible breakdown cover
- On-site repairs
- Temperature calibration to UKAS standards

Please contact our dedicated Service Team for more information: enquiries@medlinescientific.com

Elkay Pettecheck Pipette Service and Calibration

Single or multichannel, mechanical or electronic, controllers or repeat dispensers—Elkay can service and calibrate all types, makes, and models.

- ISO-8655-compliant calibration or UKAS Service
- All pipettes are dismantled, cleaned inside and outside, functional tested, and leak tested
- Onsite (Your lab)—Fastest turnaround on the day
- Offsite (Our lab)—5-7 day guaranteed turnaround on all pipettes
- All spare parts are inclusive of quoted price—No hidden costs up to set values*

For more information or to request a quotation, please contact us.

*Spare parts inclusive up to £350 per pipette, unless otherwise specified on quotation.

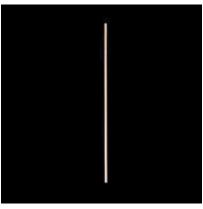

Material	Description
PP	Polypropylene
PS	Polystyrene
PE	Polyethylene
G	Glass

Material	Description
POM	Polyoxymethylene
LDPE	Low density polyethylene
PES	Polyester
PET	Polyethylene terephthalate

Sterility	Description
NS	Non sterile
S	Sterile
А	Aseptic

Swabs

Swabs

We offer a large selection of swabs for specimen collection and transportation to suit many applications in healthcare (e.g. MRSA testing and ENT), forensic sampling, environmental monitoring, and more. Please contact us to discuss your application.

Sterile Media Swabs

Amies media is a modification of Cary Blair media, which is at the same time a modification of Stuart media. Amies transport swabs assures the viability of organisms such as *Trichomonas Vaginalis*, *Streptococcus Pyogenes*, and *Streptococcus Pneumoniae*. Also available with charcoal.

Triple seal design polyethylene cap for leak tightness.

Non Sterile Swabs

300205 is a plain non-sterile wooden-shaft-only swab with straight-cut splinter-free ends. Long 147 mm wooden shaft for hard to reach places. Bulk packed. 300230 and 300260 have a 150 mm long shaft.

Cat. No.	Product Description	Sterility	PK			
Media Swa	Media Swabs					
300285	Amies Transport Swab, Charcoal Media, Polystyrene Shaft, Viscose Tip*	S	100			
300287	Amies Transport Swab, Plain Media, Polystyrene Shaft, Viscose Tip*	S	100			
300284	Amies Transport Swab, Plain Media, Snappable Polystyrene Shaft, Viscose Tip*	S	100			
300281	Amies Transport Swab, Plain Media, Aluminium Shaft, Viscose Tip*	S	100			
300281/1	Amies Transport Swab, Charcoal Media, Aluminium Shaft, Viscose Tip	S	100			
Non Steril	e Swabs					
300205	Wooden Applicator Sticks	NS	1000			
300230	Plain Swab, Wooden Shaft, Cotton Tip	NS	10,000			
300260	Plain Swab, Polypropylene Shaft, Cotton Tip	NS	4000			

^{*}M40 compliant

Swabs, continued

Plain Sterile Swabs

Sterile swabs individually wrapped in peel pack or flow pack, depending on the model. For use when samples do not need to be transported.

Sterile Dry Transport Swabs in Round Tubes

Dry swabs are supplied in a shockproof round bottom polypropylene tube, with a label sealing the cap. The tube (Ø13 x 165 mm) is labelled indicating code, description, lot number, expiry date, UDI, and provides an identifying area to note down collection details. The label seals the tube with the cap of the swab, acting like a tamper evident system. Sterilised by ethylene oxide. M40 compliant.

Rigid, round tube design prevents leakages even during transit through pneumatic tube systems, and will fit into a standard laboratory tube rack.

300261, 300252, 300263 feature snappable PS shaft.

Dry swabs are ideal for when samples do not need to be transported.

Liquid Handling

Elkay Liquipette® Pasteur Pipettes

The Liquipette® Transfer Pipette has a well-earned reputation for quality and reliability. Liquipette is unrivalled in its quality and consistency, drop after drop.

Available in 14 different styles and several packaging options including fine points, long-lengths, small bulb and a variety special styles designed for specific techniques and diagnostic kits.

- For accurate and rapid fluid dispensing
- Economical and safe alternative to glass Pasteur pipettes
- · Ascending and descending graduations
- Sterile and non-sterile versions
- · Suitable for contact with foodstuffs
- Sterile Liquipette available in packs of 20, 10, and individually-wrapped
- Typical shelf life for sterile Liquipette is 5 years from manufacturing date
- Manufactured in facilities operating to ISO 9001-2015 and ISO 13485 standards

Individually wrapped sterile pipettes are supplied in easy to peel apart paper/plastic sleeves.

Non-sterile versions of P511, P503, P406 and P509 are supplied in cartons. The unique press-out section enables easy access and keeps the contents dust and particle free when not in use.

Manufactured from virgin LDPE with crystal clear graduations for easy reading.

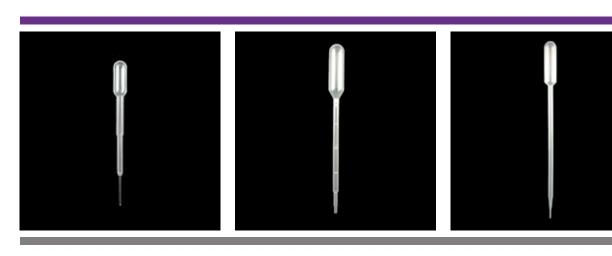

Sustainable Solutions for Laboratories

We offer a range of products and services to help you work more sustainably without impacting your daily workflows.

- Improve energy efficiency
- Lower running costs: energy and water
- Reduce environmental impact
- Lower your carbon footprint

ABDOS Pipette Tips and Refill Packs

IVD certified pipette tips designed to fit a wide variety of single and multi-channel pipettors.

Racked tips: Supplied in racks (96 positions). Each rack has a hinged lid and each tip compartment in the rack is isolated to reduce the possibility of cross contamination.

Refills: Nested tip wafers are supplied in cardboard boxes and can be easily snapped into place using reusable, autoclavable racks which may be purchased separately. Refill systems can help reduce overall plastic waste.

- Manufactured from ultra-pure USP class VI certified virgin PP (conforms to US FDA 21 CFR)
- Certified DNase, RNase, DNA, Endotoxin, Pyrogen, and ATP free
- IVD certified

Moulded graduations and universal fit.

Elkay Low Binding Filter Tips

Elkay filter (or barrier) pipette tips protect in two ways: By guarding the tip cone from aerosol contamination and by protecting the sample in the tip from contaminated pipettes. Low binding plastics create a hydrophobic surface on the inner wall which minimises sample binding.

- Manufactured from premium-grade virgin polypropylene
- RNase, DNase, DNA and Pyrogen free; ideal for PCR application

Accurate and precise.

SciPette Titan Pipette Controller

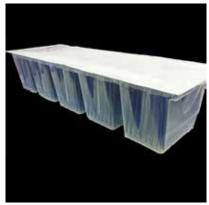

Light and ergonomically designed for ease of use for extended periods of time.

- · Economically priced
- Suitable for plastic and glass pipettors between 1 100 ml
- Up to 8 hours of continuous use
- Easy to use one-handed operation

Please contact us for more information.

Hamilton®-compatible Tips and Filter Tips

Compatible tips work reliably with the MICROLAB® STAR and NIMBUS automated workstations.

The moulded inner ring ensures perfect fit to the pipetting head and provides a tight seal, reliably straight alignment, and virtually aerosol-free tip ejection. Our tips allow full functionality of the MICROLAB workstation's tip channel pressure sensors and Liquid Level Detection system.

- Integral O ring for full CO-RE compatibility
- Black conductance tip for automated level sensing
- Manufactured to the highest standards from virgin, carbon-grade polypropylene

Manufactured from virgin PP.

Schuett Colony Counters

For quick and reliable counting of bacterial colonies, we offer both manual and automatic models. Schuett colonyQuant automatic counter is ideal for high throughput requirements:

- Process up to 400 Petri dishes per hour with automatic models
- Ideal for Ames tests and water samples
- Suitable for agar plates, nutrient and disks, plaque assays, inhibition zone analysis, spiral plating*, drop plates*, and lanes*

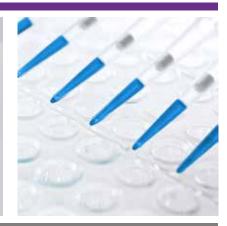

Contact us for more information.

*Adapters required.

Brand accu-jet® S Pipette Controllers

Make your work simple, easy and efficient.

Precise pipetting of large and small volumes is easy due to single-handed control of pipetting speed for fast, powerful aspiration, accurate meniscus setting, or precise dispensing of small volumes.

Designed to make routine service tasks such as membrane filter replacement, adapter change, or battery replacement simple and easy.

Choose between gravity-delivery (for pipettes calibrated "to deliver") or powered blow-out delivery (for pipettes calibrated "to contain").

Packaging contains more than 90% recycled material, and manufacturing is powered from renewable sources.

- Single-handed control of pipetting speed
- Up to 8 hours of continuous pipetting without recharging
- Valve system protects against corrosion
- Ergonomic handgrip and perfectly balanced design

For glass and plastic pipettes from 0.1 to 200 ml.

LVL Technologies Laser Marker

The TLM 864 SAFE® tube laser marker can automatically laser-code SAFE® tubes from two sides and link the information in a database to the 2D code that was previously lasered-on during production.

- Code up to 500 tubes per hour from nine SBS/ANSI positions
- Compatible with SBS 96, SBS 48 and SBS 24 formats
- Label up to 9 racks simultaneously

Discover more solutions on www.elkaylabs.com.

SciQuip SciPette Single Channel Mechanical Pipettors

Calibrated in accordance ISO/DIS 8655. Each pipettor passes a quality control calibration test and is supplied with an individual test certificate (with serial number). Pipettors are fully autoclavable up to 121 °C for total sterilisation and feature an integral tip ejector for access into narrow tubes.

- Lightweight ergonomic design
- Clear volume display
- Pipettor range from 0.1 μl to 10 ml
- Easy to calibrate and maintain
- Complies with ISO9001, 13485 and GLP guidelines
- Designed to avoid repetitive strain

Three year warranty and fully autoclavable!*

SciQuip SciPette Plus Single Channel Mechanical Pipettors

The SciPette Plus is a high performing, durable, lightweight pipettor! Simply set your volume and in 1 click of the wheel it is locked in place ensuring user confidence and consistent reliable results.

- Only 75 g our lightest fully autoclavable micropipette
- Ergonomically designed for comfort and low force to help with RSIs
- Easy to maintain, service and calibrate
- Filter element to reduce back flow
- Made from the best-in-class material for protection against chemical/physical corrosion
- Enhanced UV resistance for higher durability

Sartorius Proline® Plus Single Channel Pipettors

The Proline Plus pipette family offers a wide variety of both fixed and variable volume models as well as a unique combination of novel and patented features.

High quality and light pipetting forces provide pleasant pipetting experience. The robust design is suitable for a variety of everyday laboratory applications.

- · High chemical and UV resistance
- Fully autoclavable
- Volume setting by click stops
- · Suitable for both left and right-handed use
- · Compatible with a wide range of tips
- Compatible with most commonly used lab tubes due to slim tip ejector collar
- Safe-Cone Filter to prevent contamination and damage of pipette
- · Volume range colour-coding for easy pipette and tip selection
- Only 2-3 parts to disassemble and clean
- 2-year warranty

Robust yet light and easy to use.

Multi-channel versions also available.

Cat. No.	Product Description	Quantity
728020	0.5-10 μl	1
728030	2-20 μΙ	1
728060	20-200 µl	1
728070	100-1000 μΙ	1

Visit www.elkaylabs.com for full specifications. Other sizes available.

Sartorius Tacta® Single Channel Mechanical Pipettors

Premium mechanical pipette with superb comfort and reliability. Tacta makes pipetting effortless and safe, while producing accurate and reliable results time after time. All materials used for Tacta have been carefully selected and each component is designed to meet the highest standards.

- Optiject soft tip ejection loosens tips smoothly and in a controlled way
- Optilock's dual-function volume locking prevents accidental volume changes
- Ergonomic design for comfortable pipetting
- Low pipetting cycle forces to reduce WRULD (Work Related Upper Limb Disorder) risk
- Optiload, the spring-loaded tip cone, guarantees perfect tip loading and sealing with minimum force
- Safe-Cone Filters reduce the risk of contamination
- Quick and easy cleaning of the pipette with only three removable parts
- Four-digit volume display helps to set exact volumes
- · Fully autoclavable without disassembling
- 2-year warranty

Low pipetting cycle forces.

Multi-channel versions also available.

Sartorius Picus® Electronic Pipettors

The Picus is the smallest and lightest electronic pipette on the market, which helps technicians reduce the likelihood of pipetting related symptoms like RSI (Repetitive Strain Injury). The handle design and location of operation buttons ensures comfortable pipetting. Advanced DC-motor concept and built-in error control system help ensure unbeatable accuracy, precision and reliable results.

- Lightweight, ergonomic design and electronic tip ejection
- One-handed adjustment, unique built-in microplate tracker and intuitive programming
- Streamlined ergonomics with adjustment wheel for scrolling menus, adjusting volume and controlling manual pipetting, and feather light operating button
- Store up to 10 programs easily in pipette memory
- Adjustment possibility for 1-point, 2-points and 3-points
- Safe-Cone Filters in all models >10 μl to prevent contamination
- Easy maintenance of lower parts with GLP (Good Laboratory Practice) information integrated in software
- Autoclavable lower parts in all models (excl. Lower parts of MCP 1200 μl)
- 2-year warranty

Pipetting modes available: Pipetting, Reverse Pipetting, Manual Pipetting, Multi Dispensing, Diluting, Sequential Dispensing, Multi Aspiration, Titrating.

Sartorius Picus® 2 Electronic Pipettors

The unmatched ergonomic design of Picus® 2 reduces strain while ensuring reproducible pipetting results. Save time in the lab with easily accessible pipetting modes and customisable programs for popular applications. It is intuitive to use (like a mechanical pipette) but offers advanced options for experienced users, meaning anyone from an intern to an expert can use Picus® 2. Just pick it up, switch it on and start pipetting!

- Ergonomic one-handed operation that suits left- and right-handed users
- Adjustment wheel enables extremely fast volume setting and easy menu navigation
- Microwell Plate Tracker—keep track of the next well on a 96- or 384-well plate for accurate pipetting
- Large multicolour easy-to-read display—shows all information pertaining to your active pipetting step
- Electronic tip ejection—effortlessly removes tips to protect your hand from unnecessary strain
- Optiload for perfect tip sealing—load tips with an equal constant force to every channel
- Safety features include: Service and calibration reminders; two-level password protection; pipette locking; adjustment possibility for 1-point, 2-points and 3-point calibration

Pipetting modes available: Pipetting, Reverse Pipetting, Manual Pipetting, Multi Dispensing, Diluting, Sequential Dispensing, Multi Aspiration, Titrating.

Reliable performance while being kind to your hand.

Full range of sizes and multi-channel models available. Please contact your Regional Account Manager.

Agar Scientific Electron Microscopy Consumables

With over 40 years of experience, Agar Scientific specialises in consumables supporting all forms of microscopy.

- Electron microscope emission sources
- Embedding resins and non-toxic stains
- TEM sample support grids
- Calibration and test specimens for SEM and TEM
- Tweezers and tools for a range of applications

Visit www.agarscientific.com for more information.

Brand Transferpette® S Pipettes, Adjustable Volume, Single Channel

A slim grip fits comfortably and securely in any hand—right, left, big or small. The Transferpette® S is lightweight and balanced, with short operating paths for comfort, even in extended pipetting sessions.

- Efficient one-hand operation
- · Flexible ergonomic design for right or left hand pipetting
- Reliable volume change protection prevents accidental adjustments
- Universal tip cone
- Completely autoclavable at 121 °C
- Colour-coded accents for simple pipette and tip selection
- Easy mounting and ejection of tips with O-rings on multi-channel pipettes
- 3-year warranty

Robust reliability from Brand.

Starter packs and multi-channel versions also available.

Sample Storage, LVL Technologies

LVL Technology 2D Tube Rack SAFE® Racked Tubes

These 2D barcoded, racked tubes are a must have for any laboratory requiring safe and efficient long term storage of microlitre volumes of samples for applications such as bio-banking, epidemiological studies, cohort studies, transfusion medicine, compound management, cryopreservation and forensics.

The bottom of each individual tube is precision laser-etched with a unique 2D matrix. The bottom black components are moulded using a 'wet-on-wet' process. This process means that the components, which carry the 2D code, cannot be separated from the tubes through mechanical, chemical or thermal influences.

Tubes:

- Extra-thick walls to help withstand multiple freezing cycles
- Made from polished, low-binding medical grade virgin PP
- Capped: Caps can be removed manually or using an automated decapper/picking system*
- · Certified DNA, DNase, RNase, Pyrogen and Endotoxin free

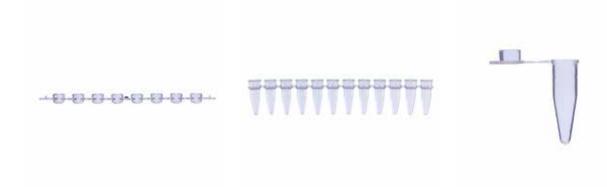

Get in touch for information on other tube sizes.

*Please enquire for information on single and multi-tube decappers/pickers, barcode scanners, and other products in this range.

Stirling Ultracold ULT Freezers

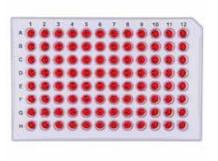

With innovative compressor-free technology, the STIRSU780XLE (780 L) freezer offers secure, reliable, and energy-efficient storage.

- Free-piston Stirling engine technology
- Uses up to 70-75% less energy than standard cascade compressor-based ULTs
- Largest storage capacity per m2 of floor space

Also available: STIRSU105UE (105 L) compact under bench and STIRULT25NEU (25 L) portable models.

Please contact us for more information.

Laboratory Equipment

WE SUPPLY A WIDE RANGE OF LABORATORY EQUIPMENT AND INSTRUMENTATION...

FROM CENTRIFUGES, INCUBATORS AND OVENS

TO FRIDGES AND FREEZERS (+4 TO -80 °C)

AS WELL AS CLASS II CABINETS, AUTOCLAVES, AND CRYOGENIC STORAGE.

Laboratory Equipment, continued

CHOOSE FROM A BROAD SELECTION OF ANALYTICAL INSTRUMENTATION...

INCLUDING BALANCES, ELECTROCHEMISTRY METERS, SPECTROPHOTOMETERS AND MICROSCOPES.

FIND ALL YOUR BENCHTOP FAVOURITES SUCH AS SHAKERS, SHAKING INCUBATORS,

HOMOGENISERS, MIXERS, STIRRERS, ELECTROPHORESIS SYSTEMS AND MORE.

Please contact your Regional Account Manager for ordering information or to request a quotation.

Freezer Racking

Organising stored samples with suitable ULT racking and an inventory management system can help laboratories to improve their energy and space efficiency, and time management.

Using freezer racks along with effective inventory management should minimise door-opening times and reduce the ice build up that can result. Being organised also saves valuable time spent searching for stored samples and reagents.

Knowing where the item you need is located can save you time and energy.

Types of Freezer Storage

Horizontal Racks

Horizontal racks for ULT freezers allow users to make maximum use of the storage space in their upright ULT freezers.

- Racks hold trays (for cryoboxes, microplates), divided trays, or storage bins
- Racks available for storing 15 ml or 50 ml centrifuge tubes
- · Aluminium or stainless steel versions

Front-access freezer racks offer convenient and quick access to stored items—only one tray needs to be removed in order to take out/locate an item in the freezer.

Side-access versions are easily customisable for various sizes of cryoboxes. In addition to cryoboxes, they can also hold microtitre plates, and are ideally suited to long-term storage.

Freezer Storage Bins

Ideal for organising and safely storing any loose items within the freezer. Standard sizes are 140 mm and 280 mm wide, but they can be custom-made to any size.

- Available in anodised aluminium or stainless steel
- Choice of fold down handle or hand grip
- · Can be fitted with a handle on each end for easy transport
- Label holder for clear inventory organisation

Freezer Racking, continued

Vertical Racks

Available in many sizes and designs. Vertical racks are ideal for organising and maximising storage within laboratory chest freezers. Vertical racks are commonly used to store cryoboxes. However, bespoke racks are available to store microtitre plates, deep-well plates or centrifuge tubes.

- · Aluminium or stainless steel versions
- · Space-efficient fold down handle to allow easy removal from the chest freezer
- Fixed handle versions (handle fixed in upright position)
- Identification labels available

Coloured Racks

Colour-coded racking can assist with freezer organisation and facilitate sharing. They can also be used to highlight mission-critical or valuable samples that should be moved to a back-up unit as a priority, if the freezer fails.

- Vibrant colours including: blue, red, purple, orange, and green
- Clearer visibility of your storage racks even when covered in ice/frost build up

We've outlined some of the options available, but please get in touch for more information or to request a quotation.

Real-time Temperature Monitoring

Configurable wireless systems for real-time monitoring and peace of mind.

- Scalable systems
- 24/7 protection with monitoring, logging, and alerting for all critical parameters
- Simple and intuitive dashboards and report generation

Please contact our dedicated Service Team for more information: enquiries@medlinescientific.com

pH Buffers and Maintenance Solutions

Reagecon pH Buffer Standards Certified Reference Materials (CRMs)

Manufactured and certified in accordance with the requirements of ISO 17034.

- ISO 17034 accreditation requirements include raw material characterisation; homogeneity and stability studies; assignment of certified values as well as packaging and documentation control.
- Directly traceable to the IUPAC pH scale by an unbroken chain of traceability. Reagecon achieves
 this traceability through a series of comparisons, with the key reference materials being Standard
 Reference Materials (SRMs) manufactured by NIST.
- Manufactured to exacting specifications with an extended shelf life and stability.
- Temperature dependence data is available via the product label as are lot numbers and expiry dates for user convenience.
- Consistency of product—Independent, Traceable, Certified.

NEW ISO 17034 range covers pH 1.697 to pH 12.00!

Calibration and Validation from TechniVal

TechniVal specialises in onsite calibration of an extensive range of laboratory and production equipment across the pharmaceutical, biotechnology and healthcare sectors.

TECHNICAL A CALIBRE SCIENTIFIC COMPANY

ISO 9001 Accredited

Our calibration services are:

- Performed in line with manufacturer's recommendations and various regulatory standards
- Executed following standard operating procedure with certification issued
- Undertaken by trained engineers

Capabilities:

- Onsite calibration
- Laboratory and test equipment
- Single point verification
- Multi point calibration

From ovens, autoclaves and freezers to centrifuges and balances, we cover a wide range of equipment.

Visit www.technival.co.uk for further information.

Our validation services:

All services are performed in line with the following regulatory standards.

- GMP and GLP guidelines (MHRA/FDA)
- Blood Safety and Quality Regulations (No. 50) 2005
- EN285
- ISO 14644
- FDA21 CFR Pt11
- European Blood Directive (2002/98/EC)

Our engineers use only certified test equipment, which is fully calibrated prior to use.

Capabilities:

- Bespoke IQ/OQ/PQ/Re-PQ packages
- Pre-approved protocols
- Pre and post test equipment calibration
- Audit approved documentation

In addition to everyday laboratory equipment, we also cover cold rooms and blood bank equipment.

Next-generation Sequencing (NGS) Assays

Paragon Genomics provides high-quality target enrichment solutions to the genomics community.

Targeted sequencing technologies CleanPlex® DNA, CleanPlex® RNA, CleanPlex® UMI, and OmniFusion™ provide comprehensive solutions to precision oncology, infectious disease testing, inherited disease testing, single cell analysis, molecular breeding and many other applications.

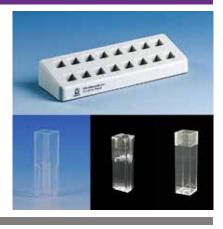

Unique and customised next-generation sequencing (NGS) assays available to meet the needs of researchers, testing labs and biopharma precision medicine projects.

Reagent Reservoirs

Reagent reservoir provides stable platform for various pipetting steps and procedures during repetitive liquid transfer.

- 2 well reagent reservoir suitable for multi-channel pipettes
- Standard SBS footprint designed to be robot compatible
- Can be stored at -80° C
- Autoclavable

Cat. No.	Product Description	Sterility	Material	PK
P10801	Reagent Reservoir, 22 ml Capacity	NS	PP	25

Forceps

Made of P.O.M. Self-sprung forceps with rounded ends. Product 19503: The inner part of the tip is ribbed to enhance sampling.

- Autoclavable
- Flexible

Cat. No.	Product Description	Sterility	Material	PK
19500	115 mm Forceps, Orange	NS	POM	5
19501	145 mm Forceps, Orange	NS	POM	5
19503	250 mm Forceps, Orange, Ribbed Inner Tips	NS	POM	5

Save money with our Labortops Catalogue!

Each Labortops edition is packed full of essentials for you lab with exclusive offers and new products.

You'll find a wide range of offers from leading manufacturers and cost-effective alternatives.

Save on:

- Laboratory glassware and plasticware
- · Scientific equipment and instrumentation
- Chromatography solutions
- Liquid handling products
- Electrochemistry meters and reagents
- Safety and cleanroom supplies
- And more...

Discover the latest edition of our Labortops catalogue on our website: www.medlinescientific.co.uk/promotions/

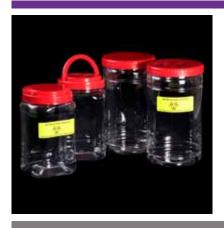

Safety and Cleaning

Waste Disposal

Cat. No.	Product Description	Sterility	Material	PK
200310R	Autoclave Bag, 310x660 mm, High Temp.	NS	PP	500
200311R	Autoclave Bag, 400x700 mm, High Temp.	NS	PP	300
200312R	Autoclave Bag, 600x780 mm, High Temp.	NS	PP	200
233039	Clinical Waste Bag, 76x99 cm, Yellow	NS	PP	100
MD66201	Specimen Bag, 140x150x200 mm	NS	PE	1000
MD66200	Specimen Bag, Printed Biohazard Label, 140x150x200 mm	NS	PE	1000
120002	Absorbent Benchcoat, 50 cm x 50 m, 100 Sheets	NS	Р	100
120001	Post Lip Paper / Slide Blotting Paper	NS	Р	100

Blue Nitrile Gloves, Powder-free

Blue nitrile gloves, 4.0 g provide unrestricted movement and an excellent barrier against viruses, bacteria, and fungi. Latex-free and ambidextrous.

- Finger textured for a reliable, consistent grip
- Comply with EN455 parts 1-4. AQL 1.5
- · Beaded cuff to assist with easy donning and prevent roll down

Latex-free and ambidextrous.

Cat. No.	Product Description	Packed
STERINC500181	Powder-Free Nitrile Gloves - Small	10 x 100
STERINC500160	Powder-Free Nitrile Gloves - Medium	10 x 100
STERINC500163	Powder-Free Nitrile Gloves - Large	10 x 100
STERINC500166	Powder-Free Nitrile Gloves - Extra Large	10 x 100

Visit www.medlinescientific.com for full specifications.

Biodegradable Violet Blue Nitrile Gloves, Powder-free

Safe for medical use and food handling. Biodegradable technology results in a quicker breakdown compared with standard nitrile gloves.* Latex-free and ambidextrous, 3.5 g.

- Biodegradable technology kickstarts biodegradation once in landfill environment
- Finger textured for a reliable, consistent grip
- Comply with EN455 parts 1-4. AQL 1.5
- · Beaded cuff to assist with easy donning and prevent roll down

Gloves retain their properties on the shelf.**

Cat. No.	Product Description	PK
STERINC500868	Biodegradable Nitrile Powder-Free Gloves - Small	10 x 100
STERINC500871	Biodegradable Nitrile Powder-Free Gloves - Medium	10 x 100
STERINC500874	Biodegradable Nitrile Powder-Free Gloves - Large	10 x 100
STERINC500877	Biodegradable Nitrile Powder-Free Gloves - Extra Large	10 x 100

Visit www.medlinescientific.com for full specifications. *ASTM testing: 90% biodegradation in 490 days. Regular nitrile can take over 100 years. **Real-time shelf life study show gloves exceed ASTM standards for tensile strength after 3 years.

Agar Scientific Cryo-Gloves

Cryogenic protection for ultra-cold applications down to -196 °C (-320 °F). State-of-the-art materials and a multi-layered construction allow for a maximum level of thermal protection, flexibility, and dexterity which are essential features when function is important, and safety is critical.

- High performance, thermal inner lining wicks moisture away from hands, maintaining comfort over extended periods
- Safety certified to meet EU standards for CE Cat. III: EN 511, EN 388, EN 420
- Sizes: Small, medium and large

Also available in pink, where a portion of profits from PINK Product Sales goes to cancer research and support services.

Other Cryo-Glove ranges: Waterproof Cryo-Gloves for working with LN₂; Waterproof Cryo-Grip Gloves for superior dexterity and hand protection; Cryo-LNG Gloves for industrial applications 'extended height'.

Cat. No.	Product Description	Quantity
AGC1015	Wrist Length Cryo-Gloves	1 Pair
AGC1016	Mid Arm Length Cryo-Gloves	1 Pair
AGC1017	Elbow Length Cryo-Gloves	1 Pair
AGC1018	Shoulder Length Cryo-Gloves	1 Pair

Visit www.agarscientific.com for full specifications. Please specify required size when ordering.

Agar Scientific Cryo-Aprons

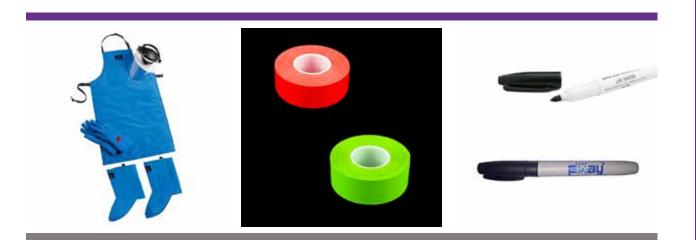

Cryo-Aprons offer protection for ultra-cold applications down to -196 °C (-320 °F). The aprons are lightweight for comfort and ease of movement, and are waterproof.

- · Adjustable straps at the neck and waist to ensure a proper fit
- Quick-release buckles at the neck and waist for swift on/off function
- Safety certified to meet EU standards for CE Cat. III: EN 511, EN 388, EN ISO 13688
- Also available for industrial applications

$\label{eq:multiple} \textbf{Multiple lengths available for maximum safety.}$

Also available in pink and black.

Cat. No.	Product Description	Quantity
AGC8050	Cryo-Apron, Small	1
AGC8051	Cryo-Apron, Medium	1
AGC8052	Cryo-Apron, Large	1
AGC8053	Cryo-Apron, XL	1

Agar Scientific Cryo-Protection Safety Kits

The Cryo-Protection Safety Kits are available in mid-arm and elbow lengths, and include:

- Pair of waterproof Cryo-Gloves
- Cryo-Apron
- Cryo-Protection Face Shield

Available in 2 lengths

Cryo-Protection Safety Kits Plus:

As above, but also includes Cryo-Gaiters.

Cat. No.	Product Description	Quantity
AGC1012	Cryo-Protection Safety Kit - Mid Arm Length	1
AGC1013	Cryo-Protection Safety Kit - Elbow Length	1
AGC1005	AGC1005 Cryo-Protection Safety Kit Plus – Mid Arm Length with Cryo-Gaiters	
AGC1006	Cryo-Protection Safety Kit Plus - Elbow Length with Cryo-Gaiters	1

Visit www.agarscientific.com for full specifications.

Laboratory Tapes and Marker Pens

Cat. No.	Product Description	Sterility	Material	PK
0755-000	White Laboratory Tape, 12 m x 19 mm	NS	Р	1
0755-001	Red Laboratory Tape, 12 m x 19 mm	NS	Р	1
0755-002	Blue Laboratory Tape, 12 m x 19 mm	NS	Р	1
0755-003	Green Laboratory Tape, 12 m x 19 mm	NS	Р	1
011-0415-010	Laboratory Marker Pen, Black, Permanent*	NS	PP	10
011-0415-080	Laboratory Marker Pen, Black, Permanent, Alcohol Fast*	NS	PP	10

^{*}Suitable for glass, plastic, metal, and porcelain even when surfaces are wet and cold. Visit www.elkaylabs.com for full specifications.

Reagecon Cleaning and Disinfection Solutions

Developed and designed to provide optimum cleaning and sanitisation in laboratories and processing plants.

These ready-to-use products eliminate the need for diluting solutions in-house (together with the associated risks of handling strong oxidizers) and save time, resources and cost in their purchase, production and storage.

Sodium Hypochlorite Solutions

- Various concentrations that deliver from 0.3% 7% available chlorine
- Recommended for general disinfection of laboratory equipment and apparatus, including benches, sinks, floors and contact surfaces (not stainless steel)
- Sanitisation of production areas and processing equipment
- As effective as chlorine gas

IPA and Ethanol Solutions

- Products contain from 30 70% IPA
- High quality antimicrobial (bactericidal/viricidal) disinfectant
- Highly effective in cleaning and sanitisation of laboratory, production and processing areas and equipment (not stainless steel)

Cat. No.	Product Description	PK
IP305	IPA 30% w/v (Isopropanol in Water) Cleaning Solution	5 L
IP70WV10	IPA 70% w/v 30% H₂O Cleaning Solution	10 L
IP70WV5	IPA 70% w/v 30% H₂O Cleaning Solution	5 L
IP70WV1	IPA 70% w/v 30% H₂O Cleaning Solution Trigger Spray	1 L
IP70WV05	IPA 70% w/v 30% H₂O Cleaning Solution Trigger Spray	500 ml
SH05WV5	Sodium Hypochlorite 0.5% w/v Cleaning Solution	5 L
SH05WV05	Sodium Hypochlorite 0.5% w/v Cleaning Solution, Trigger Spray	500 ml
SH5WV1	Sodium Hypochlorite 5% w/v Cleaning Solution	1 L
SH5WV5	Sodium Hypochlorite 5% w/v Cleaning Solution	5 L
SH5WV05	Sodium Hypochlorite 5% w/v Cleaning Solution Trigger Spray	500 ml
